Consulticorp LLC Achieving the Certified for Microsoft Dynamics Accreditation

BLOOMFIELD , _CT_ — _FEB. 16, 2016_ — _Consulticorp LLC_ announced today that its **_Advanced Rental Process Management - RPM_**, _a proven and tested solution that provides all company needs to manage rental, sales, and service business_, has passed all requirements for Certified for Microsoft Dynamics®.

CfMD, is Microsoft Corp.'s highest standard for partner-developed software. This certification represents a significant step in elevating the standard for partner-developed software solutions for industry-specific business applications. Solutions with a successful software test have demonstrated development quality and compatibility with the Microsoft Dynamics product. VeriTest, a service of Lionbridge, performed independent and rigorous testing on the solution's integration with Microsoft Dynamics. **_Consulticorp LLC_** has also earned the Microsoft Certified Partner designation with the ISV Competency.

"By requiring the software solution to meet our highest standards, Microsoft is assuring customers that these certified solutions work with their investments in Microsoft Dynamics," said Doug Kennedy, vice president, Microsoft Dynamics Partners. "Microsoft congratulates **_Consulticorp LLC_** on the software test results and wishes it success in earning the Certified for Microsoft Dynamics designation."

RPM functionality includes

- **Rental Fleet Management:** organize & track your equipment status, location and movements.
- **Optimize Fleet Utilization** by having visibility into your equipment status and availability now and into the future.
- **Flexible rental billing** options include advance or arrears billing, many options for periodic billing, utilization-based billing,
- **Accounting for rentals:** real time posting of rental invoices to GL; rental revenue reporting by Product Line, Category, Subcategory, Project, even down to the unit level; automated accrual & deferral calculations, and many analysis tools.
- **Service Work Order processing:** track repairs & maintenance history of your own equipment or customer equipment. Integrated with related rental unit statistics. Allows you to charge customers for damage to your equipment or for repairs to customer equipment. Includes preventive maintenance features.
